

Join us in cultivating the next generation of gardeners!

Become a supporter of the **Kids Garden Community**,
a collaborative venture uniting garden educators nationwide.

Now more than ever, teachers, caregivers, and youth leaders are seeking support for their garden-based learning programs. In response to this urgent need, we're launching an innovative, web-based platform that offers resources and opportunities to connect with peers.

Why KidsGardening?

KidsGardening has been a leader in the youth gardening movement for nearly 40 years. As a national nonprofit we inspire and support garden educators, volunteers, and families by offering grants, original educational resources, and inspiration to get more kids learning through the garden.

Our Growing Thriving Communities Campaign offers garden industry leaders like you an opportunity to nurture the next generation of gardeners.

In 2020, KidsGardening received an unprecedented number of requests from educators hungry for not only lesson plans and grant opportunities, but inquiries about ways to network and connect with their peers as they adapt to new ways of teaching.

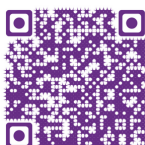

By providing an engaging, easy-to-use, online forum for garden educators to meet one another, share resources, successes and challenges, learn together, and receive funding, we are removing educators' barriers to doing garden-based learning and increasing the number of kids in the US who have access to gardens.

KidsGardening's network is made up of over 42,000 educators across the country. We are bringing this group together with advisors from 15 of the largest youth garden organizations to launch the KidsGarden Community.

Impact

By 2025, the Kids Garden Community will:

- Reach 20,000 educators and caretakers with high quality garden-based learning resources and direct networking experiences
- Reach 500,000 children with garden programming.

The Kids Garden Community

We're looking for partners to get in on the ground floor of this new development in garden activism and education.

By October 2021, we aim to raise \$250,000 to support the Community.

Our friends at Gardener's Supply Company have generously agreed to make a gift of \$30,000 if we meet this goal. This would allow us to launch and sustain the Community into the future.

Please join us!
