

Seed Library Planning Worksheet

Answer the following questions to begin the planning process for a seed library:

1. List community members who would benefit from having a seed library:
2. Do we have access to a space that could offer the right conditions for a seed library? Is this space accessible for community members to visit?
3. Where would we get seeds to start a seed library? Are there any local gardening clubs or organizations that could help? Are there any businesses or government organizations that might be able to help? How many seeds would we need to started?
4. In addition to seeds, what materials would we need to start a library? Would we be able to find donations or funding to obtain needed supplies?
5. What information would we need to share with folks checking out the seeds so they can be successful growing the plants?
6. How can we track the seeds that are shared/check out?

KidsGardening is a nonprofit educational organization. Support provided by sponsors and donors is critical to our ability to provide free garden-based resources for parents and educators. All gifts are tax-deductible.

7. Who will help run the seed library and keep it organized?

8. What will we do if people are not able to harvest and return seeds to the library to share?

9. How could we promote the seed library? How can we use the seed library to spread awareness about the importance of seeds and biodiversity?

10. What additional considerations need to be made before starting a seed library?

KidsGardening is a nonprofit educational organization. Support provided by sponsors and donors is critical to our ability to provide free garden-based resources for parents and educators. All gifts are tax-deductible.
