

Name: _____

WORD HARVEST WORKSHEET

Observations from the Garden

Visit the garden and find one object that catches your attention. It can be living or not living - a plant, insect, watering can, anything you can observe!

Make notes about your object below. In the Observation column, use your 5 senses to think of words to describe your object. In the Feelings and Reactions column, write down words describing what you are thinking about when you look at the object.

Observations - External (Use Senses)	Feelings and Reactions - Internal
