

# NATIONAL SURVEY ON YOUTH GARDEN GRANTMAKING

DATA FROM JAN 1 - DEC 31, 2024

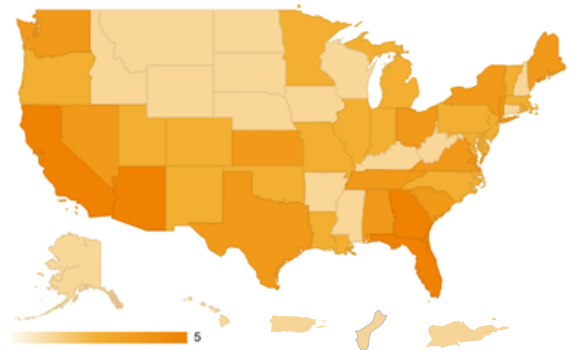

The youth garden movement has grown steadily in the past decade as more educators, caregivers, and families get excited about garden-based learning opportunities for kids.

The Youth Garden Grantmakers Community of Practice, a group of ten organizations that offer grants to youth garden programs locally, regionally, or nationally, collected information for a second time about the grants given to youth garden programs in 2024.

Did your organization award funding to youth gardens in 2024? If so, we would love for you to fill out [the survey](#)! We will update the data below as new submissions are received.

For more information and a list of organizations who completed the survey, [visit this link](#).
